

CHANGING LIVES FOR MORE THAN 47 YEARS

Jannus is a not-for-profit health and human services organization that is successfully helping individuals, families and communities in transition — from infancy to healthy childhood, from illness to health, from refugee to working citizens, and from isolation to community. Jannus changes lives through caring volunteers and a portfolio of diverse programs that promote health, advance policy and create opportunity. Jannus programs reach more than 50,000 men, women and children in Idaho annually. Here are just a few of their stories:

- Gismo arrived in ID from Congo just one year ago. She was dependent on others to get to her full-time job in Twin Falls. She realized she needed to learn to drive. A small loan from EO paid for driving lessons and today she has her license and more knowledge about building credit.
- Idaho Voices for Children coordinated Close Gap Idaho, resulting in 87,000 Idahoans getting health coverage as a result of Medicaid expansion. During the pandemic, Medicaid protected family financial stability and provided critical access to health care, including COVID-19 testing and treatment.
- Helene is a Global Garden's farmer whose CSA business is thriving. She has done so well that she started a new small farm at Health Wise in Boise, where employees enjoy her fresh produce.
- Zoey said "The compassionate "hello" that came from the Hotline phone responder saved her life that night. Now her hopeless moments are fewer. She still struggles, and on those days, she still reaches out to the Hotline.
- Ricardo worked with Global Talent to reclaim the engineering career he had in Peru. He was prepping for a second interview when Covid-19 hit and the company froze all hiring. He just had that second interview and a job offer. He received a salary bump over \$40,000 plus benefits, lifting his family of five above the poverty line.
- Amelie, the mother of three, found the US credit system confusing. She was excited to get credit education and a small credit builder loan from EO. She is experiencing a level of independence she never dreamed of in Bhutan.
