## About the Presenter:

Kim Keys, LCPC, CS, (she/her), has over 25 years behavioral health experience. Her clinical background ranges from forensic populations and criminality to substance use, trauma and acute behavior health disorders. Most recently Kim has founded Keys Counseling Solutions; a group counseling clinic and behavioral health consulting agency, focused on providing excellent client care, supporting behavioral health systems and improving outcomes across the state of Idaho. Having had career opportunities across many domains and in multiple states across the country, Kim has developed a broad and diverse perspective of behavioral health systems and approaches to care. It is these experiences Kim draws from, as she strives to challenge her listening audiences to think critically, question their assumptions and leave with a hunger for growth and professional excellence.
